

JULY 1 – AUGUST 31, 2026

# NCTS-TCA Summer Student Program 2026

## 理論計算天文暑期學校

National Center for Theoretical Sciences  
Taipei & Hsinchu

Join the Theoretical and Computational Astrophysics (TCA) undergraduate summer research program in 2026! This program offers:

- Full-time intern from July 1 to August 31
- Research experience in a wide range of topics in theoretical and computational astrophysics
- A mini-workshop (July 01 – 03) featuring lectures and research overview
- Public presentation of research results at the end of the program
- Stipend: 12,000 NTD/month for domestic students\*

## Application

- Eligibility: Undergraduate students (including those who will graduate this summer)
- Deadline: April 10, 2026

More information

Apply

\*Foreign students, if agreed by a supervisor, are encouraged to apply for the IIPP program (<https://iipp.tw/>), which is due around the end of April for the program starting in July. The IIPP program could offer \$30,000/month up to 3 months. Airfare is not included.
